

# The Celestia Theme

V1.0.0

Razik Ikhlef

## ① FONTS

**MAINFACE** Main font for text and titles (*Literata* by default)

**MAINFACEOPTIONS** Options directly passed to `fontspec` for the main font

**SANSFACE** Sans-serif font for structural elements (*Inter* by default)

**SANSFACEOPTIONS** Options passed to `fontspec` for the sans-serif font

**MONOFACE** Monospace font for code (*Roboto Mono* by default)

**MONOFACEOPTIONS** Options passed to `fontspec` for the monospace font

**ALLSERIF** Uses the main serif font for mathematics

```
\usetheme[
  mainface=EB Garamond,
  mainfaceoptions={Scale=1.1},
  sansface=Montserrat,
  monoface=Fira Code,
  allserif
]{Celestia}
```

## ② COLORS

**MAINCOLOR** Main color used for titles and accents (*LaTeX* svgnames or *HTML* hexadecimal code)

**ACCENTCOLOR** Secondary color for special elements

**BACKGROUNDCOLOR** Slide background color (*F7F9FC* by default)

**CODEBACKGROUNDCOLOR** Code block background color (*F1F3F6* by default)

**MAINBLUE** Standard block color (*045549* by default)

**MAINGREEN** Example block color (*054924* by default)

**MAINRED** Alert block color (*490445* by default)

**UNICOLOR** Uses the main color for all text

```
\usetheme[
  maincolor=045549,
  accentcolor=E63946,
  backgroundcolor=FAFAFA,
  codebackgroundcolor=F5F5F5
]{Celestia}
```

## ③ LAYOUT

- MARGIN** Content margin (2em by default)
- FRAMETITLE** Title style (elegant, plain, centered)
- DECORATIVE** Enables decorative elements
- NODECORATIVE** Disables decorative elements
- CENTEREDTITLE** Centers the title on the title page
- TITLERIGHT** Right-aligns the title

```
\usetheme[  
  margin=1.5em,  
  frametitle=centered,  
  decorative,  
  centeredtitle  
]{Celestia}
```

## ④ HEADERS

- HEADSTYLE** Font family for titles: **rmfamily** (serif) or **sffamily** (sans-serif)
- HEADSHAPE** Character style: **sc** (small caps), **it** (italic), **normal**
- HEADWEIGHT** Title weight: **bfseries** (bold) or **mdseries** (normal)

```
\usetheme[  
  headstyle=sffamily,  
  headshape=sc,  
  headweight=bfseries  
]{Celestia}
```

## ⑤ CODE

- CODEBOX** Enables code framing with **tcolorbox** (true by default)
- NOCODEBOX** Completely disables **tcolorbox** code framing
- NOCODEFRAME** Keeps **tcolorbox** but without visible border

```
\usetheme[  
  nocodebox,  
  nocodeframe  
]{Celestia}
```

## ⑥ FOOTER

- NOFOOTER** Completely removes the footer, except for the slide number
- QUARTERCIRCLEFOOTER** Displays only the number in a quarter circle at the bottom right
- FULLBARFOOTER** Creates a complete bar with author/title/date and number in a circle

```
\usetheme[
  quartercirclefooter
]{Celestia}
```

## ⑦ TABLE OF CONTENTS

**COMPACTTOC** Reduces vertical spacing between table of contents entries

**TWOCOLUMNTOC** Automatically distributes sections across two balanced columns

```
\usetheme[
  compacttoc,
  twocolumntoc
]{Celestia}
```

## ⑧ BLOCKS

**BLOCK** Standard block for normal content

**EXAMPLEBLOCK** Block for examples

**ALERTBLOCK** Block for alerts

## ⑨ BLOCK STYLES

**SOBERBLOCK** The title adopts the main block color on the document's general background, while the body keeps a slightly tinted background (10%)

**SOFTBLOCK** The title and body share the same slightly tinted background (10%), with the title in the corresponding main color

```
\usetheme[
  soberblock
]{Celestia}
```

% or

```
\usetheme[
  softblock
]{Celestia}
```

## ⑩ STANDOUT PAGES

La commande **standout** transforme une diapositive en page spéciale, idéale pour les moments clés de la présentation : citations marquantes, chiffres essentiels, messages à retenir.
